DaVinci Resolve 14 Studio combines professional editing, the world's most advanced color corrector and all new Fairlight digital audio tools into a high performance system that's up to 10x faster than before! Now you can seamlessly edit, color correct, mix and deliver without having to switch software.. It's like getting 3 high end applications in one! Best of all, DaVinci Resolve 14 Studio also features revolutionary new multi user collaboration tools that let multiple people work on the same project at the same time! In addition to multi user collaboration, the DaVinci Resolve 14 Studio edition also includes advanced tools such as automatic face recognition and tracking, dozens of additional Resolve FX such as film grain, lens flares and more, temporal and spatial noise reduction, photorealistic motion blur effects, stereoscopic 3D tools, multi GPU support for incredible performance, frame rates up to 120fps, and high resolution output for 4K and beyond! Professional Editing DaVinci Resolve includes every professional editing and trimming tool imaginable, making it perfect for high end film and television editing! The new playback engine is up to 10x faster so you get instantaneous feedback and precise control while editing and trimming, even for processor intensive formats such as H.. Revolutionary new tools for editing, color correction and professional audio post production, all in a single application! Originally designed for Hollywood's elite colorists, DaVinci Resolve has been used on more feature films and TV shows than anything else because it lets you create images that are simply impossible with other tools.. DaVinci is also the world's fastest growing and most advanced editing software! Now, with DaVinci Resolve 14, you get incredible new Fairlight audio tools specifically designed for film and television post production. [Vm Workstation For Mac](#)
